

END EAVORS S R O V A E D N E

lively interdisciplinary conversations
: a colloquium in African American Studies that showcases works in progress

Saturday, January 21, 2017, 4:30-8:30 p.m.

Whitney Humanities Center, 53 Wall Street

Author Margot Lee Shetterly will discuss the brilliant Black women mathematicians whose "human computing" helped change the course of space exploration. Afterwards, we'll screen the film adaptation based on Shetterly's book, *Hidden Figures*. Shetterly will engage in a talk back with Yale scholars and sign copies of her best-selling book.

DOORS OPEN AT 4:00 P.M. / FREE & OPEN TO THE PUBLIC

Principal Sponsors: African American Studies Department, Yale Provost's Office, Yale College Dean's Office, Yale FAS Dean's Office, Films at the Whitney, Whitney Humanities Center, The Afro-American Cultural Center, Yale MLK Planning Committee
