A symposium inspired by the legacies of James Tully

This event is supported by the Edward J. and Dorothy Clarke Kempf Fund, the Yale Political Theory Workshop, and the Yale Group for the Study of Native America.

James Tully’s 1995 Strange Multiplicity: Constitutionism in an Age of Diversity is among the most seminal texts of the last two decades for indigenous studies and political theory. On the occasion of its 20th anniversary, this symposium invites reflections on the state of these fields and their future directions.
