

THE FRANKE PROGRAM IN SCIENCE AND THE HUMANITIES  
*is pleased to announce an exciting new contest that is open to all.*

# EUREKA CONTEST

Have you ever wondered and thought about new and simple ways to explain what a virus is, what a black hole is, what causes a volcano to erupt, what happens when ice melts, or what a rainbow is?

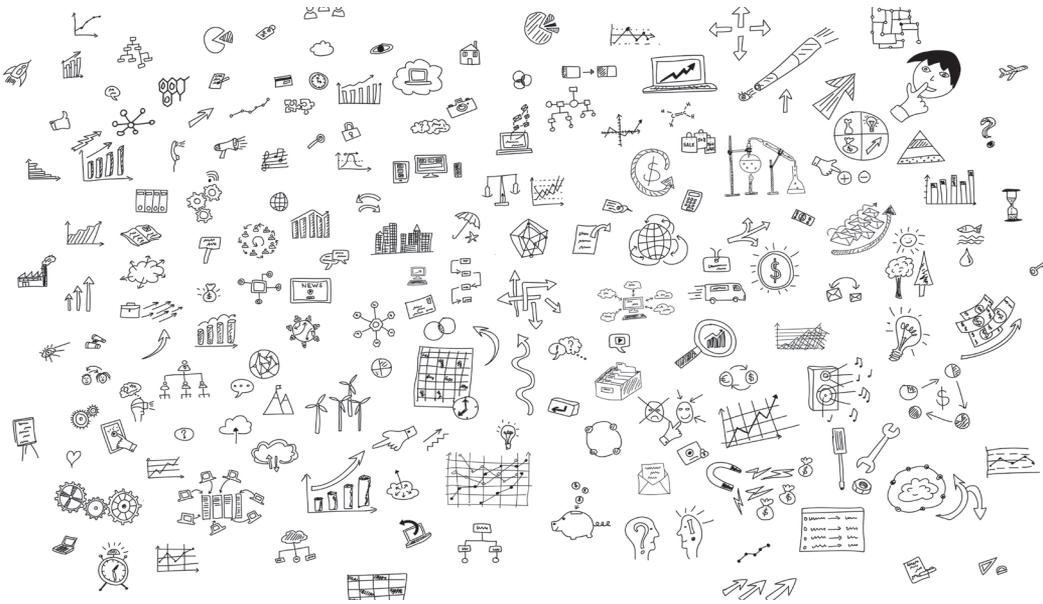

---

## WE SEEK SUBMISSIONS

---

of up to 2-minute-long videoclips explaining, creatively and insightfully, a scientific concept to the curious public using any creative medium.

---

To help with making the videos, we are hosting a talk and master class on storytelling led by award-winning science documentary filmmaker Zuberoa Marcos in room 208 at the Whitney Humanities Center at 5:30 p.m. on February 18, 2020.

Meanwhile, we have some useful tips on making videos available on the Eureka page on our website: [franke.program.yale.edu/eureka-film-competition](http://franke.program.yale.edu/eureka-film-competition).

Submissions are due by 5 p.m. on Tuesday, March 24, 2020 and need to be e-mailed to [frankeprogram@yale.edu](mailto:frankeprogram@yale.edu).

Our judges, Carl Zimmer, Zuberoa Marcos, Vin Liota, and Emily Coates, will select a number of finalists whose submissions will be screened on April 21st in the O.C. Marsh Lecture Hall in the new Yale Science Building. The winners will be announced at the screening.
